MULTI-RESIDENTIAL PROJECTS OVER 6 DWELLING UNITS UP TO 2 RESIDENTIAL STOREYS

Ivy Lane

A selection of low maintenance aesthetically pleasing materials for the facades to give a warm friendly feeling to the gated community is a feature of this development. The colour palette also helps to accentuate the overall feel that the client was trying to achieve. The units are appealing to everyone due to the combination of traditional roof lines mixed with modern products and colours both inside and out. A well-presented unit development that has met the client's expectations and budget has proven to be popular with the majority of being sold either prior to or not long after completion. A big selling point was the bright open spaces that characterise the units.
